

## Trek to Tokyo

Since 2021 is an Olympic year, I thought we, as a school, should set ourselves another running challenge.

Tokyo, in Japan, is the host nation of the 2021 Summer Olympic Games. It would be impossible for our school to attend such a prestigious sporting event, so I thought we could do the next best thing!

### Trek to Tokyo

How can we do this I hear you ask?

Well, first of all we have worked out that it is 5841 miles from Doncaster to Tokyo. Do you think we can run this far? Impossible you say?

Every child during each PE lesson will have the opportunity to run a mile. This will involve three laps of the school perimeter.

After your PE lesson, you will add a notch to your classroom tally chart if you have completed the mile run.

At the end of each week, the tally from all classes in school will be converted to miles to find out how far we are from reaching our destination!

Can we make it to the Olympics in time?

Good luck and see you in Tokyo!

Mr Thomas
